Experienced front-end developer seeking opportunities as a web / mobile developer in challenging, collaborative work environment. Available July 2019 for full time employment.

Skills

Web: Javascript, React JS, Redux, StyledComponents, Vue Js, AngularJs 1.5, SCSS
Mobile: Swift, Kotlin, React Native
Programming: Java, Python, C#, PHP
Software: Visual Studio Code, Xcode, Android Studio

Experience

Ahold-Delhaize, RBS: Front-End Developer Co-op   1/2017 – 8/2018

Held various co-op positions for Ahold Delhaize, an international food retailer. Worked initially as a Business Intelligence Co-op working in Angular JS 1.5 to create enterprise facing applications. In May 2017, switched to the Rapid Application Development Team as a Senior Front-End Co-op, producing fast paced proof of concept applications in Swift, React JS, and React Native among others. Moved up to a Lead Front-End Co-op in May 2018. Worked on applications such as:

Who's Who: Web App
- Used React JS to create a basic, Facebook-like responsive web application.

Take it, Bake it, Make it: Web App
- React JS application allowing a user to choose meals from the grocery store and have them ready to eat, ready to put in the oven, or the ingredients ready to carry home.

Beer Kiosk: Web App
- React JS application designed for profile Kiosk and landscape iPad to offer beer pairings for a chosen food, or food pairings for a chosen beer.

React Native Biometrics: Cross Platform App
- Used React Native and NPM packages to create a proof of technology fingerprint authentication and keychain login system for iOS and Android.

Novelis Corporation: Front-End Developer Co-op   8/2016 – 1/2017

Worked as an Automation Front-End Developer Co-op for Novelis, a major aluminum production company. Worked on applications such as:

Energy Data Visualizer: Web App
- Used Angular JS 1.5 to create a data visualization web-app showing the energy usage of different areas and machines around the plant.

iD Tech: Lead Instructor   5/2016 – 8/2017

Taught an introduction to Java course to students aged 14 to 17. Served as a role model to other instructors and had added responsibilities interacting with parents and accommodating students with medical needs.

Education

Rochester Institute of Technology - Rochester, NY   9/2013 – 12/2018

Bachelor of Science in Information Technology - Web and Mobile Concentration, Psychology Immersion
- Application Development Practices (SDLC)
- Designing the User Experience
- Client and Server Programming
- Mobile Application Development I and II
- Senior Development Project I and II

Muse: iOS and Android App - Mobile Application Development
- Created an iOS (Swift) and Android (Kotlin) app allowing a musician to record voice recordings into a calendar view to help see their progress over time.

Stories Hotels: Web App - Senior Development Project
- Worked with a team of Croatian hotels to create a React website that streamlined their search and booking process. Worked remotely with team members in both Croatia and the United States.

RIT Croatia - Zagreb, Croatia   1/2019 – 5/2019
